

Honeywell ICOM™ combines safety eyewear and Bluetooth technology for easy communication and increased productivity.

Honeywell ICOM™ - Safety Eyewear

Honeywell ICOM™ eyewear provides premium eye protection combined with the latest Bluetooth technology for faster and better communication. This hands-free communication allows workers to focus on the task at hand, keeping them safer and more productive on the job. Perfect for work environments where protection and communication is essential.

Honeywell ICOM is the ideal solution for those working in manufacturing, utilities, drivers/transportation and construction industries just to name a few examples.

Honeywell icom kit includes

- Honeywell ICOM with Internal Rechargeable Lithium ion polymer battery
- USB micro charging cable (100-240V)
- Comes standard with clear lens and grey replacement lens
- Hard cover carry case
- Additional pair of ear tips (additional eartips can be ordered separately)
- User guide

Vision Protection Features:

- Replaceable and stylish lenses with proprietary anti-fog coating
- Soft brow guard absorbs and diffuses impact energy
- Soft, flexible “fingers” on the nosepiece minimise slippage and offer a comfortable fit
- Lightweight at only 52 grams
- Comes with both Clear and Grey lens tints to meet a variety of work environments and applications
- All Honeywell lenses offer 99.9% ultra-violet protection.
- Meets ASNZS 1337.1 Medium Impact

Audio Features:

- Stereo Bluetooth Eyewear with dual microphones for ambient noise reduction
- Bluetooth safety eyewear connects to Bluetooth enabled devices.
- Knowles balanced armature drivers provide superior stereo music delivery through comfortable ear tips
- Battery provides between 4 to 8 hours of continuous use (depending on condition and usage) and up to 7 days on standby.
- Noise cancellation technology built into dual microphones allows clear voice communication even in high noise environments.
- Lithium ion polymer rechargeable battery lasts for a minimum of 12 months on average and includes a 1 year warranty
- Honeywell ICOM™ FCC and Bluetooth SIG certified

Item	Description	Packaging
1031030	Honeywell ICOM	Individual box
ET-108	Replaceable ear tips	10 pairs in a bag

Listening to music, or any other sound, at a high volume over time can cause permanent damage to your hearing.

Noise induced hearing loss can occur even when we are enjoying music on a personal listening device. Exposures to high volume over time can cause permanent damage. Users should enjoy their favorite music safely and avoid the potential for hearing loss. When it comes to safe use of personal listening devices, we recommend that you listen responsibly at 80% of a device's maximum volume safely for a maximum of 90 minutes per day. If you listen at a lower volume, you can listen for longer –but for higher volumes, less time.

Noise-induced hearing loss is 100% permanent, but 100% preventable.
